Professional company profile for supplier registration, procurement engagement, RFQ and tender submissions, business development and funding applications.

01 COMPANY OVERVIEW

Kuruman Civil & Construction (Pty) Ltd (KCC) is a South African construction and infrastructure business based in Kuruman, Northern Cape. KCC is positioned to serve public-sector, private-sector, mining, industrial, infrastructure and contractor-support markets.

The company provides civil construction, building construction, mining support, logistics and transport support, infrastructure development, procurement and contractor support, as well as cleaning and grounds maintenance services. KCC is focused on dependable delivery, professional conduct, safety-conscious operations, quality workmanship, responsive client service and sustainable business growth.

Vision

To build KCC into a leading South African construction, infrastructure and contractor-support company recognised for reliable delivery, professionalism and positive community impact.

Mission

To deliver safe, practical, cost-effective and sustainable solutions that meet client requirements while creating value for clients, communities, employees and business partners.

Core Values

Quality	Professional workmanship and client-focused delivery.
Safety	Responsible planning, risk awareness and safe work practices.
Integrity	Transparent, ethical and accountable business conduct.
Community	Local participation, opportunity and empowerment.
Excellence	Continuous improvement and dependable service.

02 CORE SERVICES & CAPABILITIES

Civil Construction

Roadworks, earthworks, stormwater and drainage, concrete works, retaining structures, bulk infrastructure and related civil activities.

Building Construction

Residential, commercial, industrial and institutional construction and associated building works.

Mining Support

Civil and operational support for mining environments, site establishment, maintenance support, material handling and related contractor services.

Logistics & Transport Support

Transport coordination, material movement, plant and logistics support, receiving and dispatch, and supply-chain assistance.

Infrastructure Development

Water reticulation, sewer systems, foundations, fencing, roads and general infrastructure-support works.

Procurement & Contractor Support

Supplier coordination, sourcing support, PPE supply, documentation, procurement administration and contractor support.

Cleaning & Grounds Maintenance

Commercial and general cleaning, yard and premises cleaning, garden and grounds maintenance, grass cutting, vegetation control and general outdoor maintenance.

Target Sectors

Mining • Construction • Infrastructure • Property Development • Industrial • Logistics • Public Sector • Private Sector • Contractor Support

Service Approach

KCC aims to combine disciplined planning, clear communication, safety awareness, quality control and practical resource coordination throughout the project lifecycle. Project resources can be structured according to scope, client requirements and site conditions.

03 COMPANY CREDENTIALS & PROCUREMENT READINESS

Credential	Confirmed Information
Legal Name	Kuruman Civil & Construction (Pty) Ltd
Registration Number	2026/527959/07
CIDB CRS Number	10464514
CSD Supplier Number	MAAA1738466
B-BBEE Status	Level 1 Contributor
Business Location	Kuruman, Northern Cape, South Africa
SARS Tax Compliance	TCS PIN obtained – PIN should be kept confidential and supplied only through approved procurement channels

Procurement & Supplier Readiness

KCC maintains a structured documentation approach for supplier onboarding, RFQs, tenders, business introductions and funding applications. Supporting statutory, tax, financial, safety, operational and project-specific documentation should be attached according to the requirements of each opportunity.

Important: The SARS TCS PIN itself is not reproduced in this public company profile. It should be shared only through secure and authorised channels when verification is requested.

04 MANAGEMENT & PROJECT READINESS

Managing Director

Tsholofelo Reginald Kok provides overall strategic and operational leadership for KCC, with responsibility for business development, procurement, tender administration, supplier relationships, project coordination, compliance and client engagement.

Project Readiness Functions

Function	Project Contribution
Project Management	Planning, coordination, reporting and stakeholder communication.
Civil Engineering	Technical support and planning for civil and infrastructure works.
Site Management	Site coordination, supervision and productivity.
Health & Safety	Risk awareness, safe work practices and safety coordination; specialist requirements to be supported
Quantity Surveying	Measurement, cost awareness and commercial support where required.
Plant & Logistics	Equipment, materials, transport and operational coordination.

Opportunity Focus

KCC is positioned to pursue suitable opportunities in mining and civil infrastructure, roads and earthworks, building and industrial developments, maintenance and support services, logistics and material support, cleaning and grounds maintenance, and public- and private-sector projects, subject to verification of each opportunity's eligibility requirements.

05 VALUE PROPOSITION & CONTACT

Client Focus	Understanding scope and aligning delivery with client requirements.
Safety	Embedding safety awareness and responsible operational practices.
Quality	Maintaining professional standards and attention to workmanship.
Procurement	Building reliable supplier relationships and sourcing capability.
Responsiveness	Providing practical, coordinated and timely support.
Community Impact	Supporting local economic participation and opportunity.
